

PRESENTATION ABSTRACT

TACTICAL COMMUNICATION FORUM

Developing and Maintaining Joint Tactical Communications - CONOPS

Alan Gore | TCF Chairman

This presentation will discuss the existing Swedish Armed Forces Interoperability (IO) enabling systems policy suite of documentation (CONOPS) which discusses the use of TDs, IFF, Secure radio and text systems. The presentation will include a short history of development of the document, its structure and areas for future development to benefit tactical information exchange.

The presentation will also identify areas on how CONOPS type documentation can be improved to increase interoperability both nationally and internationally.

The presentation will come from both a military and government procurement perspective.
