INTEROPERABILITY- Get In and Keep Up

Steve Lewis | TCG

This briefing presented at a high level and is geared primarily for nations beginning to embark on their quest for Interoperability with NATO, Partnership for Peace, and other coalition nations forces. It addresses key interoperability enablers, a few of the challenges to be expected along the way, some things to look at when weighing the decision to “join the club”, considerations necessary to keep up with your partner nations, and several tips to help you stay knowledgeable and interoperable.
